INTEGRATED TESTING COORDINATOR
for fire alarm and life safety systems (ULC-S1001)

Under the supervision of the project manager, you will be responsible for preparing and carrying out integrated testing of fire alarm and life safety systems in accordance with the ULC-S1001 standard, on new construction and rehabilitation projects. You can choose to work from our Montréal, Brossard or Sainte-Thérèse office, with site travel required (about 25% of the time).

What responsibilities and tasks can you expect?

- Review project documentation (drawings, specifications, shop drawings), identify the integrated systems involved, and prepare the integration matrix, the integrated testing plan and the test procedures, in coordination with the project stakeholders;
- Review the available verification and pre-testing reports, and confirm that the required conditions and documents are in place before starting the testing campaign;
- Lead the integrated testing campaign on site: coordinate the required stakeholders, observe and document results and deviations, and draw up the deficiency list where applicable;
- Coordinate retesting once contractors and subcontractors have made their corrections;
- Compile the results and write the final integrated testing report for the client.

What are the requirements for this position?

- Training in engineering, building technology, electrical or a related field (controls). Professional engineer status is an asset;
- At least 5 years of relevant building experience (mechanical, electrical or controls);
- ULC-S1001 Integrated Testing Coordinator accreditation is a major asset.

What skills are we looking for?

- Strong verbal and written communication skills in French (English is an asset for understanding documentation on products from outside Canada)
- Working knowledge of English required to understand the many technical references used in our industry
- English is used anywhere from occasionally to daily, depending on current projects and clients
- Knowledge of fire alarm systems and their integration with controls, electrical and mechanical systems
- Proficiency in Microsoft Office
- Knowledge of Quebec construction codes and standards.

What qualities are we looking for?

- Excellent verbal and written communication skills
- Ability to produce high-quality reports with strong synthesis skills
- Resourcefulness, autonomy and problem-solving skills
- Leadership and ability to direct people on site
- Client focus, interpersonal and communication skills
- Well organized and able to guide resources by communicating expectations clearly
- Thoroughness and good time management
- Adaptability, flexibility and comfort with uncertainty.

Why join our team?

With more than 65 years of experience, Dupras Ledoux is a consulting engineering firm specializing in building mechanical and electrical engineering, with offices in Montréal, Brossard and Sainte-Thérèse. Dupras Ledoux employs nearly 100 people with a wide range of skills and areas of expertise, from all walks of life. We are a multicultural team that promotes inclusion and sees diversity as a real strength. We value fairness and dignity for all, regardless of gender, ethnic origin, religion, age, sexual orientation or any other aspect of identity.

At Dupras Ledoux, you will have the opportunity to work on a wide range of projects, from institutional buildings to condo towers, as well as cultural centres, sports facilities and much more. The firm stands out for its commitment and its collaborative culture, where every team member, including our engineer partners, plays an active role in the design of each project. Join us for a rewarding career where you can learn from their experience and expertise while sharing your own ideas and talents.

Other benefits you'll enjoy:

- Enjoy competitive pay and a competitive benefits package;
- Work remotely with the high-performance tools we provide;
- Grow your RRSP with our annual contribution;
- Benefit from a group insurance plan: life, health, dental, disability, drug and even travel insurance, as well as a telemedicine service;
- Enjoy every Friday afternoon off thanks to our flexible schedule;
- Take part in activities organized by our Workplace Happiness Committee.
